

BE PART OF A NEW FOCUS GROUP TO DISCUSS NOVEL TESTS FOR RHEUMATOID ARTHRITIS TREATMENTS

We are looking for volunteers to **discuss** and provide **opinions** on tests that may be developed in the future that could predict how well treatments will work in people with Rheumatoid Arthritis.

We are seeking individuals with RA, who are over 18 years old and could spare 2 hours to join a local focus group in either Central Manchester, Birmingham or London. The focus groups will take place during 2015, you will be required to express your opinions, ideas and concerns regarding the possible use of predictive tests for RA treatments in the future.

If you are interested please contact **Deborah Maskell** on 0161 275 5046 or deborah.maskell@manchester.ac.uk or visit the **MATURA website patient and public involvement tab:**
